Burn Jul 24 2020 In the still of the night a beautiful woman's spine is broken as she watches her boyfriend burn to death out on a creek. Daltrey, a young detective with the Vancouver Police Department, who likes to work outside the system and has time for no one, wants to know why. With the help of a young electronics genius unwittingly turned model, a legendary but aging private detective, and a host of others tied together by the mayhem of Vancouver's seedy underbelly, Daltrey hunts a psychopath through webs of prostitution, deception, and savage violence. As undeniably funny as it is dark, *Burn* is at once a tale of revenge and of the elusive fantasies of truth driving each of its larger than life but deeply flawed hero's, villains, and strange tag alongs. Paul Slatter offers a rare portrait of the lies and madness at the heart of modern life, revealing a host of hilarious desires, perversions, and raw psychotic impulses that are often too close for comfort, and somehow still keeps us laughing on every page.

Burn Rate Nov 08 2021 In this "gripping" (TechCrunch), "eye-opening" (Gayle King, Oprah Daily) memoir of mental illness and entrepreneurship, the co-founder of the menswear startup Bonobos opens up about the struggle with bipolar disorder that nearly cost him everything. "Arrestingly candid . . . the most powerful book I've read on manic depression since *An Unquiet Mind*."—Adam Grant, #1 New York Times bestselling author of *Think Again* and host of *WorkLife* ONE OF THE MOST ANTICIPATED BOOKS OF 2022—Forbes At twenty-eight, fresh from Stanford's MBA program and steeped in the move-fast-and-break-things ethos of Silicon Valley, Andy Dunn was on top of the world. He was building a new kind of startup—a digitally native, direct-to-consumer brand—out of his Manhattan apartment. Bonobos was a new-school approach to selling an old-school product: men's pants. Against all odds, business was booming. Hustling to scale the fledgling venture, Dunn raised tens of millions of dollars while boundaries between work and life evaporated. As he struggled to keep the startup afloat, Dunn was haunted by a ghost: a diagnosis of bipolar disorder he received after a frightening manic episode in college, one that had punctured the idyllic veneer of his midwestern upbringing. He had understood his diagnosis as an unspeakable shame that—according to the taciturn codes of his fraternity, the business world, and even his family—should be locked away. As Dunn's business began to take off, however, some of the very traits that powered his success as a founder—relentless drive, confidence bordering on hubris, and ambition verging on delusion—were now threatening to undo him. A collision course was set in motion, and it would culminate in a night of mayhem—one poised to unravel all that he had built. *Burn Rate*

is an unconventional entrepreneurial memoir, a parable for the twenty-first-century economy, and a revelatory look at the prevalence of mental illness in the startup community. With intimate prose, Andy Dunn fearlessly shines a light on the dark side of success and challenges us all to take part in the deepening conversation around creativity, performance, and disorder.

Burn Jan 22 2023 One of the foremost researchers in human metabolism reveals surprising new science behind food and exercise. We burn 2,000 calories a day. And if we exercise and cut carbs, we'll lose more weight. Right? Wrong. In this paradigm-shifting book, Herman Pontzer reveals for the first time how human metabolism really works so that we can finally manage our weight and improve our health. Pontzer's groundbreaking studies with hunter-gatherer tribes show how exercise doesn't increase our metabolism. Instead, we burn calories within a very narrow range: nearly 3,000 calories per day, no matter our activity level. This was a brilliant evolutionary strategy to survive in times of famine. Now it seems to doom us to obesity. The good news is we can lose weight, but we need to cut calories. Refuting such weight-loss hype as paleo, keto, anti-gluten, anti-grain, and even vegan, Pontzer discusses how all diets succeed or fail: For shedding pounds, a calorie is a calorie. At the same time, we must exercise to keep our body systems and signals functioning optimally, even if it won't make us thinner. Hunter-gatherers like the Hadza move about five hours a day and remain remarkably healthy into old age. But elite athletes can push the body too far, burning calories faster than their bodies can take them in. It may be that the most spectacular athletic feats are the result not just of great training, but of an astonishingly efficient digestive system. Revealing, irreverent, and always entertaining, Pontzer has written a book that will change how you eat, move, and live.

Don't Burn This Book Feb 11 2022 "Topical, engaging, personable, and above all, reassuring." -Dr. Jordan B. Peterson, author of *12 Rules for Life* From host of *The Rubin Report*, the most-watched talk show about free speech and big ideas on YouTube right now, a

roadmap for free thinking in an increasingly censored world. The left is no longer liberal. Once on the side of free speech and tolerance, progressives now ban speakers from college campuses, "cancel" people who aren't up to date on the latest genders, and force religious people to violate their conscience. They have abandoned the battle of ideas and have begun fighting a battle of feelings. This uncomfortable truth has turned moderates and true liberals into the politically homeless class. Dave Rubin launched his political talk show *The Rubin Report* in 2015 as a meeting ground for free thinkers who realize that partisan politics is a dead end. He hosts people he both agrees and disagrees with—including those who have been dismissed, deplatformed, and despised—taking on the most controversial issues of our day. As a result, he's become a voice of reason in a time of madness. Now, Rubin gives you the tools you need to think for yourself in an age when tribal outrage is the only available alternative. Based on his own story as well as his experiences from the front lines of the free speech wars, this book will empower you to make up your own mind about what you believe on any issue and teach you the fine art of: Checking your facts, not your privilege, when it comes to today's most pervasive myths, from the wage gap and gun violence to climate change and hate crimes. Standing up to the mob against today's absurd PC culture, when differences of opinion can bring relationships, professional or personal, to a sudden end. Defending classically liberal principles such as individual rights and limited government, because freedom is impossible without them. The Progressive Woke Machine is waging war against the last free thinkers in the world. *Don't Burn This Book* is the definitive account of our current political upheaval and your guide to surviving it.

Burning the Books Sep 06 2021 The director of the famed Bodleian Libraries at Oxford narrates the global history of the willful destruction—and surprising survival—of recorded knowledge over the past three millennia. Libraries and archives have been attacked since ancient times but have been especially threatened in the modern era. Today the knowledge they safeguard faces purposeful destruction and willful neglect; deprived of funding, libraries are fighting for their very existence. *Burning the Books* recounts the history that brought us to this point. Richard Ovenden describes the deliberate destruction of knowledge held in libraries and archives from ancient Alexandria to contemporary Sarajevo, from smashed Assyrian tablets in Iraq to the destroyed immigration documents of the UK Windrush generation. He examines both the motivations for these acts—political, religious, and cultural—and the broader themes that shape this history. He also looks at attempts to prevent and mitigate attacks on knowledge, exploring the efforts of librarians and archivists to preserve information, often risking their own lives in the process. More than simply repositories for knowledge, libraries and archives inspire and inform citizens. In preserving notions of statehood recorded in such historical documents as the Declaration of Independence, libraries support the state itself. By preserving records of citizenship and records of the rights of citizens as enshrined in legal documents such as the Magna Carta and the decisions of the US Supreme Court, they support the rule of law. In *Burning the Books*, Ovenden takes a polemical stance on the social and political importance of the conservation and protection of knowledge, challenging governments in particular, but also society as a whole, to improve public policy and funding for these essential institutions.
