This book is a comparative study of military practice in Sui-Tang China and the Byzantine Empire between approximately 600 and 700 CE. It covers all aspects of the military art from weapons and battlefield tactics to logistics, campaign organization, military institutions, and the grand strategy of empire. Whilst not neglecting the many differences between the Chinese and Byzantines, this book highlights the striking similarities in their organizational structures, tactical deployments and above all their extremely cautious approach to warfare. It shows that, contrary to the conventional wisdom positing a straightforward Western way of war and an "Oriental" approach characterized by evasion and trickery, the specifics of Byzantine military practice in the seventh century differed very little from what was known in Tang China. It argues that these similarities cannot be explained by diffusion or shared cultural influences, which were limited, but instead by the need to deal with common problems and confront common enemies, in particular the nomadic peoples of the Eurasian steppes. Overall, this book provides compelling evidence that pragmatic needs may have more influence than deep cultural imperatives in determining a society's "way of war." Complete information and advice on personal finances and important decisions, tailored to members of the armed forces. This new edition of Ian Hogg's classic is this century's ultimate reference work on the subject of military small arms. It has been fully updated and expanded (by 64 pages) to cover all small arms in military service during the 20th century and now includes many arms listings and photographs that did not appear in earlier editions. Recognized internationally as the leading authority on military small arms, author Ian Hogg was given free rein on this edition; he has delivered the ultimate reference edition for all interested in the history of these arms. Arms coverage includes: Pistols Submachine Guns Bolt-Action Rifles Automatic Rifles Machine Guns Anti-Tank/Materiel Rifles Ammunition Paddock also includes new sections on American psychological warfare in the Pacific, the Army Rangers, the 1st Special Service Force, and American-led guerrillas in the Philippines."--BOOK JACKET. From the internationally bestselling author of The Hearts and Lives of Men and The Life and Loves of a She-Devil comes a novel that asks a provocative question: If you ruled the world, what would you do? Eleanor Darcy has come up in the world. With her second husband in prison for financial crimes against the nation, she is a media sensation. A self-professed "feminist of the socialist variety," Eleanor grants an exclusive interview to Hugh Vansitart and Valerie Jones, a pair of ambitious journalists. Her vision of the future includes the abolition of money and society-approved procreation, a world in which "all men will believe in God and be capable of love." During the course of their interviews, Hugh and Valerie succumb to some erotic impulses of their own, while Eleanor goes on to become patron saint of the Darcian Movement. From the storyteller who is constantly measuring the moral pulse of men and women, Darcy's Utopia is an uproarious and subversive riff on the age-old battle of the sexes. This timely casebook provides a complete exploration of both constitutional and domestic law issues of national security, blended with cases, notes, questions, and original materials. The best-selling casebook in the field, National Security Law, Third Edition, Is both current and comprehensive. Some of the effective features that earned the book its leading position include: a cohesive thematic framework that examines policy And The consequences surrounding American use of force, intelligence operations, and counterterrorism efforts rich primary materials, such as judicial opinions, executive correspondence, statutes, and legislative history penetrating hypothetical questions that prompt analysis of the actual issues faced by national security professionals plentiful descriptive text to supply context and informative historical and background materials Material in the Third Edition is especially important in light of current national security issues: Part III, devoted to terrorism and transnational law enforcement, includes the original Osama bin Laden case, American-Arab Anti-Discrimination Committee v. Reno, and materials on consequence management extensive coverage throughout the book of the terrorist attacks of September 11, 2001 with legal analysis of U.S. And international responses U.S. military involvement in Columbia U.S. And NATO activity in Kosovo BSS6 is the sixth edition of The Battle Staff SMARTbook, completely updated for 2020. Updated material includes the full scope of new material from ADP 5-0, The Operations Process (Jul `19); ADP 6-0, Mission Command (Jul `19); FM 3-0 (w/Change 1), Operations (Dec `17); FM 6-0 (w/change 2), Commander and Staff Organization and Operations (Apr `16); ATP 2-01.3, Intelligence Preparation of the Battlefield (Mar `19); ADP 3-19, Fires (Jul `19); ATP 3-60, Targeting (May `15); ATP 5-19 (w/change 1), Risk Management (Apr `14); and ADP 1-02, Terms and Military Symbols (Aug `19); and more. This illustrated book that includes tables, charts, and maps primarily discusses the role of USAREUR (US Army Europe) in rearming and training the new German Army which was perhaps the Army's single greatest contribution toward maintaining security in Western Europe. Likewise, the relationship between American soldiers and their French and West German hosts evolved over time and is a critical element in telling the story of the US Army in Europe. Score High on the ASVAB for better military placement. It is said that deception among people in a civilized society is something to be loathed even though it seems to be part of human nature; but deception in war is a virtue. Properly designed and executed, stratagems reduce the horrific costs of war. This book is a comprehensive collection of classic articles on deception, hand-picked and expertly introduced by well-known experts on military deception. The purpose of this book is to set in motion a renaissance for using deception as an instrument of statecraft. The various sections are designed to cumulatively provide sufficient breadth and depth on the subject to satisfy both the novice as well as the expert. Packed with expert commentary, interesting background information, and original readings, this book provides the reader with sufficient knowledge to pursue General Eisenhower's vision for the proper role of deception in support of the national interest. The history of the 24th Infantry regiment in Korea is a difficult one, both for the veterans of the unit & for the Army. This book tells both what happened to the 24th Infantry, & why it happened. The Army must be aware of the corrosive effects of segregation & the racial prejudices that accompanied it. The consequences of the system crippled the trust & mutual confidence so necessary among the soldiers & leaders of combat units & weakened the bonds that held the 24th together, producing profound effects on the battlefield. Tables, maps & illustrations. This book has been replaced by Military Psychology, Third Edition, ISBN 978-1-4625-4992-4. Applying for a federal job or promotion no longer requires a lengthy, lifeless form. Instead, applicants can emphasize their strengths, skills, and smarts in resumes that will hook hiring staff and make personal qualifications shine. Learn how to address and overcome evidentiary problems in military courts-martial proceedings. Military Evidentiary Foundations brings military evidence law to life, showing you how to frame foundational questions to gain admission or exclusion of evidence. The book includes specific lines of questioning, demonstrating courtroom-proven trial techniques applying military evidence law. Trust this expert treatise from the same authors that wrote the LexisNexis Military Rules of Evidence Manual. This edition of Military Citation provides the military legal scholar with a convenient citation guide that compliments. The Bluebook, A Uniform System of Citation. Without question, the American military has opened doors for those left outside the mainstream of public education. A long tradition of servant-leadership has produced a system demonstrating excellence in education and in many ways continuing the servant leader tradition of leadership by trial. SUTS3 is the third revised edition of The Small Unit Tactics SMARTbook, completely updated for 2019 to include ADP 3-90 Offense and Defense (Aug `18); FM 3-0 Operations (Oct `17), FMs 3-90-1 & -2 (May `13), ATP 3-21.8 Infantry Platoon and Squad (Apr `16), ATP 3-21.10 Infantry Rifle Company (May `18), TC 3-21-76 The Ranger Handbook (Apr `17), and the latest versions of more than 20 additional references. SUTS3 chapters and topics include tactical fundamentals, the offense, the defense, stability and counterinsurgency operations, tactical enabling tasks (security, reconnaissance, relief in place, passage of lines, encirclement, and troop movement), special purpose attacks (ambush, raid, counterattack, spoiling attack, demonstrations, and feint ), urban and regional environments (urban, fortified areas, desert, cold region, mountain, and jungle operations), patrols and patrolling. For anyone interested in queer theory, the construction of masculinity, or sex between men outside of gay urban culture - and for anyone who has ever thrilled at the sight of a man in uniform. From the Publisher: This latest edition of an official U.S. Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army. This scholarly yet readable book is designed to inculcate an awareness of our nation's military past and to demonstrate that the study of military history is an essential ingredient in leadership development. It is also an essential addition to any personal military history library. Provides the U.S. Army with a comprehensive but brief account of its past. This is the first of two volumes. It covers the Army's history from its birth in 1775 to the eve of WW1, when the U.S. had become a world power. Contents: What is military history?, theory and practice of war, and the American military system; The colonial beginnings; The American Revolution, first phase; The winning of independence, 1777-1783; The formative years, 1783-1812; The War of 1812; Toward a professional army; The Mexican War and after; The Civil War; The inter-war years, 1865-1898; The Army in the Indian Wars, 1865-1890; Emergence to world power, 1898-1902; and Transitional change, and the road to war, 1902-1917. Dozens of maps and illustrations. This text analyzes the history, evolution, and processes of national security policies. It examines national security from two fundamental fault lines--the end of the Cold War and the evolution of contemporary terrorism, dating from the 9/11 terrorist attacks and tracing their path up to the Islamic State (ISIS) and beyond. The book considers how the resulting era of globalization and geopolitics guides policy. Placing these trends in conceptual and historical context and following them through military, semi-military, and non-military concerns, National Security treats its subject as a nuanced and subtle phenomenon that encompasses everything from the global to the individual with the nation at its core. New to the Sixth Edition Fully updated with expanded coverage of ISIS, the "new cool war" with Russia, cybersecurity challenges, natural resource wars and development, negotiations with Iran, border threats, and much more. Includes a completely new chapter on "lethal landscapes" such as developing world international conflicts in Africa, Asia, and the Middle East; the "siren song" of the Islamic State; and the dilemmas of guns, butter, and boots on the ground. Shifts the focus from globalization to a more widely-ranging look at security, from the individual level to the regional to the global. CMH Pub 50-1-1. Defense Studies Series. Discusses the evolution of the services' racial policies and practices between World War II and 1965 during the period when black servicemen and women were integrated into the Nation's military units. A controversial psychological examination of how soldiers' willingness to kill has been encouraged and exploited to the detriment of contemporary civilian society. Psychologist and US Army Ranger Dave Grossman writes that the vast majority of soldiers are loath to pull the trigger in battle. Unfortunately, modern armies, using Pavlovian and operant conditioning, have developed sophisticated ways of overcoming this instinctive aversion. The mental cost for members of the military, as witnessed by the increase in post-traumatic stress, is devastating. The sociological cost for the rest of us is even worse: Contemporary civilian society, particularly the media, replicates the army's conditioning techniques and, Grossman argues, is responsible for the rising rate of murder and violence, especially among the young. Drawing from interviews, personal accounts, and academic studies, On Killing is an important look at the techniques the military uses to overcome the powerful reluctance to kill, of how killing affects the soldier, and of the societal implications of escalating violence. LONGLISTED FOR THE NATIONAL BOOK AWARD • A searing reassessment of U.S. military policy in the Middle East over the past four decades from retired army colonel and New York Times bestselling author Andrew J. Bacevich, with a new afterword by the author From the end of World War II until 1980, virtually no American soldiers were killed in action while serving in the Greater Middle East. Since 1990, virtually no American soldiers have been killed in action anywhere else. What caused this shift? Andrew J. Bacevich, one of the country's most respected voices on foreign affairs, offers an incisive critical history of this ongoing military enterprise—now more than thirty years old and with no end in sight. During the 1980s, Bacevich argues, a great transition occurred. As the Cold War wound down, the United States initiated a new conflict—a War for the Greater Middle East—that continues to the present day. The long twilight struggle with the Soviet Union had involved only occasional and sporadic fighting. But as this new war unfolded, hostilities became persistent. From the Balkans and East Africa to the Persian Gulf and Central Asia, U.S. forces embarked upon a seemingly endless series of campaigns across the Islamic world. Few achieved anything remotely like conclusive success. Instead, actions undertaken with expectations of promoting peace and stability produced just the opposite. As a consequence, phrases like “permanent war” and “open-ended war” have become part of everyday discourse. Connecting the dots in a way no other historian has done before, Bacevich weaves a compelling narrative out of episodes as varied as the Beirut bombing of 1983, the Mogadishu firefight of 1993, the invasion of Iraq in 2003, and the rise of ISIS in the present decade. Understanding what America's costly military exertions have wrought requires seeing these seemingly discrete events as parts of a single war. It also requires identifying the errors of judgment made by political leaders in both parties and by senior military officers who share responsibility for what has become a monumental march to folly. This Bacevich unflinchingly does. A twenty-year army veteran who served in Vietnam, Andrew J. Bacevich brings the full weight of his expertise to this vitally important subject. America's War for the Greater Middle East is a bracing after-action report from the front lines of history. It will fundamentally change the way we view America's engagement in the world's most volatile region. Praise for America's War for the Greater Middle East “Bacevich is thought-provoking, profane and fearless. . . . [His] call for Americans to rethink their nation's militarized approach to the Middle East is incisive, urgent and essential.”—The New York Times Book Review “Bacevich's magnum opus . . . a deft and rhythmic polemic aimed at America's failures in the Middle East from the end of Jimmy Carter's presidency to the present.”—Robert D. Kaplan, The Wall Street Journal “A critical review of American policy and military involvement . . . Those familiar with Bacevich's work will recognize the clarity of expression, the devastating directness and the coruscating wit that characterize the writing of one of the most articulate and incisive living critics of American foreign policy.”—The Washington Post “[A] monumental new work.”—The Huffington Post “An unparalleled historical tour de force certain to affect the formation of future U.S. foreign policy.”—Lieutenant General Paul K. Van Riper, U.S. Marine Corps (Ret.) This is the first biography of one of the most important and yet least known American leaders of World War II, Sandy Patch, the Seventh Army commander who led his troops to victory at Guadalcanal and made a vital contribution to Allied successes in Europe in 1944-45. This book is the first and only comprehensive guide to Federal jobs and the Military resume for enlisted personnel and officers. The easy-to-follow step-by-step format can help former military personnel get jobs with popular agencies like Homeland Security, FBI and the Drug Enforcement Agency. The U. S. Government faces a severe hiring crisis as baby boomers retire. There is also an increased need for employees with military backgrounds to fight the domestic war on terrorism. Former military personnel are needed at every salary level. Updated with maps, photographs, and battlefield diagrams, this special fiftieth anniversary edition of the classic history of the Korean War is a dramatic and hard-hitting account of the conflict written from the perspective of those who fought it. Partly drawn from official records, operations journals, and histories, it is based largely on the compelling personal narratives of the small-unit commanders and their troops. Unlike any other work on the Korean War, it provides both a clear panoramic overview and a sharply drawn you were there account of American troops in fierce combat against th. The Stars are Lined Up for Military Spouses for Federal Careers, 2nd Ed., is a federal career reference book for military spouses around the world. The unemployment rate for military spouses is HIGH. The spouses need quality careers. The US government is opening up hiring for military spouses more than ever with EO 13473 - Military Spouse Preference.
